

PENSION FUNDS EXPERTS

SERVICES

Valuation of liabilities

Valuation of liabilities and determination of necessary technical reserves.

Legal compliance

Monitoring of the regulations governing benefits and financing.

Actuarial appraisal

Technical balance sheet, breakdown of target return, profit/loss analysis, risk analysis, prospective coverage ratio estimate.

Consulting

New pension solutions, risk assessments of new connections, participation and reorganization concepts, dilution protection and much more

YOUR BENEFITS, OUR PROMISE

Understand your pension fund

Our analysis will help you understand the interrelationships in your pension fund. This, in turn, will allow you to explain historical trends and forecast prospective trends.

Keeping up with the times

Our experts are involved in the Swiss Chamber of Pension Fund Experts and in various specialist groups. They help shape the pension fund landscape. Benefit from our knowledge and experience.
